

BACHELOR OF SCIENCE IN NURSING

Blessing-Rieman College of Nursing & Health Sciences

Second Degree Transfer Option

About the program:

Congratulations on your decision to pursue a Bachelor of Science in Nursing Degree from Blessing-Rieman College of Nursing & Health Sciences. A BSN allows you to develop the skills needed to be a part of this challenging profession. A BSN also is necessary to be accepted into programs for specialty fields such as nurse anesthetist, midwife, administration, nurse education or clinical nurse specialist. BSN nurses have more opportunity for advancement into supervisory positions and other positions of responsibility. Some employers require a BSN degree for certain positions. Not to mention, it gives you the chance to make a difference in peoples lives everyday.

Blessing-Rieman is fully accredited by the Commission on Collegiate Nursing Education (CCNE) as well as the Higher Learning Commissions (HLC). We also hold many other agency and state approvals which can be viewed on our website under the About Us section.

Admissions Requirements:

Requirements

- BS or BA degree
- Cumulative grade point average of 2.7 or higher

Additional Information:

You will first begin classroom work and clinical experiences on campus the last week of May. After the summer semester you will then complete two school years. In addition to course work students will complete over 800 hours of hands-on clinical experience in a variety of settings such as pediatrics, emergency department, the intensive care unit and more! Students will learn skills as well as practice these skills at our Simulation Center. The Simulation Center has 9 simulated manikins which perform an array of life-like functions such as breathing, blinking, lung sounds, heart sounds and even birthing a baby!
