Evaluation and Transfer of Credit

PURPOSE

To describe the process for evaluation and transfer of college credit.

POLICY

Approved transfer of credit may be applied toward program degree requirements.

PROCEDURE

Students initiate evaluation of transfer credit with the submission of official transcripts from all previous institutions.

Academic credit for a course earned at a regionally accredited institution, approved by the American Council on Education (ACE), or evaluated by World Education Services (or an equivalent service), are accepted as follows:

- Required or elective nursing and health science courses with a grade of C or above
- Required prerequisite courses with a grade of C- or above
- General education courses (Maximum of six (6) hours with a grade of D)

There is no time limit for acceptance of general education or prerequisite credits earned during prior enrollments. Acceptance of required or elective nursing and health science credits taken during prior enrollments is determined upon review by the academic advisors, the Academic Dean, and/or Program Coordinators/Faculty.

When courses are approved for transfer, the transcript reflects the credit hours without grades. Grades for transfer courses are not part of the cumulative or program grade point averages (GPA). Courses transferred as prerequisite courses are calculated into the prerequisite GPA.

Transferred courses are applied toward degree requirements when content is deemed equivalent to program courses.

Students are responsible for providing syllabi requested for the purpose of evaluation.
