Progression Requirements for Undergraduate Programs

PURPOSE

To provide requirements for progression from one level of course work to the next.

POLICY

Students are required to meet specific criteria in order to progress through undergraduate programs.

PROCEDURE

Bachelor of Science Programs

For the Bachelor of Science programs, progression is defined as moving from sophomore level (200) to junior level (300), junior level to senior level (400), and senior level to graduation.

In order to progress through and graduate from undergraduate Bachelor of Science (BS) programs, students must:

- Maintain a minimum cumulative grade point average (GPA) of 2.7.
- Maintain a minimum cumulative program GPA of 2.7 in all courses at the completion of all required 200, 300, and 400 level required program courses.
 - Students will not progress to the next level or graduate when the program GPA is below 2.7.
- Meet the competency requirements of each level
- Earn a minimum of C in all required program courses according to the grading policy of the

College/program

- Complete prerequisites for subsequent courses
- Earn a minimum of C- in all required prerequisite courses

Associate of Science Program(s)

For the Associate of Science program(s), progression is defined as continuation through leveled coursework upon successful completion of prerequisite and concurrent course requirements.

Medical Laboratory Technology (MLT)

In order to progress through semester and graduate from the MLT program, students must:

- Maintain a minimum cumulative grade point average (GPA) of 2.5
- Earn a minimum of C- in all required prerequisite courses
- Complete all prerequisites for subsequent courses
- Earn a minimum of C in all required MLT courses according to the grading policy of the College/program
- Achieve a 75% clinical evaluation/grade per rotation

The academic progress of all students is evaluated by the Academic Committee at the end of each semester. If progression requirements are not met, students and advisors are notified by a letter from the Office of the Registrar.

Students unable to progress due to a program GPA below requirements may need to retake a core program course in order to raise the GPA and progress to the next level.
